Shall I send the reports on over to Niki?

Yes. We put in clay and removed years later. Randy knows history. We put retention swales in also.

Dennis,

Niki, from the County Manager's office, called to find out history on these roads. She says that Christine Niezgodzki called and is very upset about the condition of her road. She said that she didn't want anyone from the Road Department to call her … she wants to talk to the County Manager. Remembering that there had been some past interaction with this lady, she wanted to know what we had done in the past before having Darren call her back.

I briefed Niki on some of the requests we had received as well as some of the work we had done. She wanted to know if your office would have any information to add. Wasn't this the area that we had put down clay one time and had to go back out and take it back up again? I've attached everything I have on these 2 roads for

your review prior to its getting sent to Niki.

Thank you,

T
