**- Summary of Staff Determination -**

**STAFF RECOMMENDATION:** Staff recommends **APPROVAL** of the variance request to (LDR) Section 10.01.03 to allow an accessory dwelling unit to be 1488 square feet living area in lieu of 1256 square feet living area.

**-Staff Analysis-**

The subject property is 25 +/- acres and is located on the north side of County Road 44A, in the Eustis area. The property has split zoning, which are Agriculture (A) on the north side and Community Facility District (CFD) on the southwest corner and is part of the Receiving Area A-1-20 Future Land Use Category. The parcel has no indication of wetlands and is not located within a flood zone<sup>2</sup>. Currently there is a single family dwelling, carport, work shed, two barns, tack room, chapel and an unpermitted manufactured home, which is what the current owners would like to permit as an accessory dwelling unit.

The owner/applicant bought the property in 1998 and was unaware that the two homes that were on the parcel had not been permitted. In 2016, code enforcement opened a case regarding those two homes. The owner/applicant applied for a building permit for the primary home on January 10, 2017, with a living area of 3185 square feet.

The owner/applicant is applying for a variance to Land Development Regulation (LDR) 10.01.03(B)(4) which states that an accessory dwelling unit shall not exceed one thousand two hundred (1,200) square feet or forty (40) percent of the air conditioned, enclosed living area of the principal dwelling (excludes garages, patios, porches and the like), whichever is greater. The accessory dwelling unit is 1488 square feet living area which is over the allowed 1256 square feet by 214 square feet (as seen in Exhibit A).

The **intent of the Code**, LDR Section 10.01.03, is to provide for less expensive housing units to accommodate growth, provide housing for relatives and to provide for security.

VAR-17-05-5, Fredricks Property

The applicants submitted the following reasons as proof of **meeting the intent of the Code**:

*“The intent of the code is to allow an accessory dwelling for guest/relative occupancy but limit the size to avoid additional impacts to adjacent properties. The site is heavily wooded and the Applicant proposes to maintain this condition to buffer adjacent properties from any additional impacts the excess square footage (288 square feet) may cause adjacent properties.”*

The applicant submitted the following as proof that the application of the Land Development Regulations would create a **substantial hardship or would violate principles of fairness**:

*“The manufactured home was placed on the property in 1978 by a previous owner. The County has no record of any permitting for the structure. The Fredricks were cited for a structure w/o a building permit and contend they have no responsibility for the placement. The applicants state it would be a substantial monetary loss if they were unable to permit and use the structure and had to remove it. They wish to clear the code violations and need the variance to do so.”*

**FINDINGS OF FACT:** Staff has reviewed the application for this variance request and found:

1. This request is consistent with LDR 10.01.03, Accessory Structures that are Dwellings, which attempts to provide for less expensive housing units to accommodate growth, provide housing for relatives and to provide for security; and
2. This request is consistent with the remaining standards for accessory dwelling units as found in LDR 10.01.03(B).

The owner and applicant have submitted proof of meeting the intent of the Code and have shown proof of a substantial hardship or that the application of the Code would violate principles of fairness. Based on the Findings of Fact and Analysis stated above, Staff recommends **approval** of the variance request to allow an accessory dwelling unit to be 1488 square feet living area in lieu of 1256 square feet living area.
