Expected Outcomes from Expenditure of Funds Requested:

First Column, select any number of the listed outcomes that apply. If the expected outcome is not listed for the requested funds, select "Other" and provide a brief description.

Second Column, for each outcome selected, describe the specific measure of the benefit or outcome. For example, an outcome may be improving physical health. A measure may be reduced blood pressure in patients with high blood pressure. Another example may be an outcome of reducing substance abuse. A measure may be clean urinalyses. **Do not select as a measure the number of persons receiving services.**

Third Column, describe how that outcome will be measured. For example, the outcome of improved physical health, where the measure may be reduced blood pressure could be measured by recording the blood pressure of all patients receiving services after 2, 4 and 6 months of treatment and comparing the results to untreated populations and to other populations with differing treatments. On the outcome of reducing substance abuse, the measure may be the percentage of treatment recipients who have clean urinalysis 6 months after completing treatment.
