FLEXIBLE SPENDING SAVES MONEY ON YOUR TAXES

It's as easy as swiping a card when it comes to saving on out-of-pocket costs. And this year, your flexible spending has increased from \$2,650 to \$2,700 for health care. Flexible spending accounts (FSA) help employees to save taxes on money spent for healthcare expenses. An FSA allows you to save up to 30 percent on your eligible healthcare expenses every year by using pre-tax dollars. The money put into an FSA is tax-free, but must be used on approved healthcare-related costs.

Employees can use their FSA on things such as:

FSA Savings Example

Annual Salary:	\$35,000	
Out-of-pocket Medical/Dental Expenses:	\$1,000/year	
Out-of-pocket Dependent Care Expenses:	\$2,500/year	
	Without FSA	With FSA
Gross Pay	\$35,000	\$35,000
FSA Contribution (health & dep care)	- \$0	- \$3,500
Taxable Monthly Income	\$35,000	\$31,500
Taxes (Fed, State, FICA) at 25%	- \$8,750	- \$7,875
Out-of-pocket Expenses	- \$3,500	- \$3,500
REIMBURSEMENT FROM FSA:	+ \$0	+ \$3,500
Take-home Pay:	\$22,750	\$23,625
You save \$875 / year

PHARMACY CHANGES

Medical plans across the nation have seen major increases in charges related to prescription costs. Florida Blue will be changing our prescription program (**effective 10/1/2019**) in the following ways:

Participants will no longer be able to fill prescriptions through the plan at CVS or Target pharmacies.

Prescriptions will still be covered under the plan at other current providers like Publix, Walgreens, and Winn-Dixie. Participants also have access to Florida Blue Prime Therapeutics Mail-Order prescription service. See below for more information. To search for pharmacy providers, visit www.floridablue.com.

★ *The pharmacy must fill a generic. However, employees who prefer a brand when a generic is available will pay the difference in cost between the brand and the generic along with any applicable member cost share.*
