

A SAFE SCHOOLS TRANSPORTATION STUDY

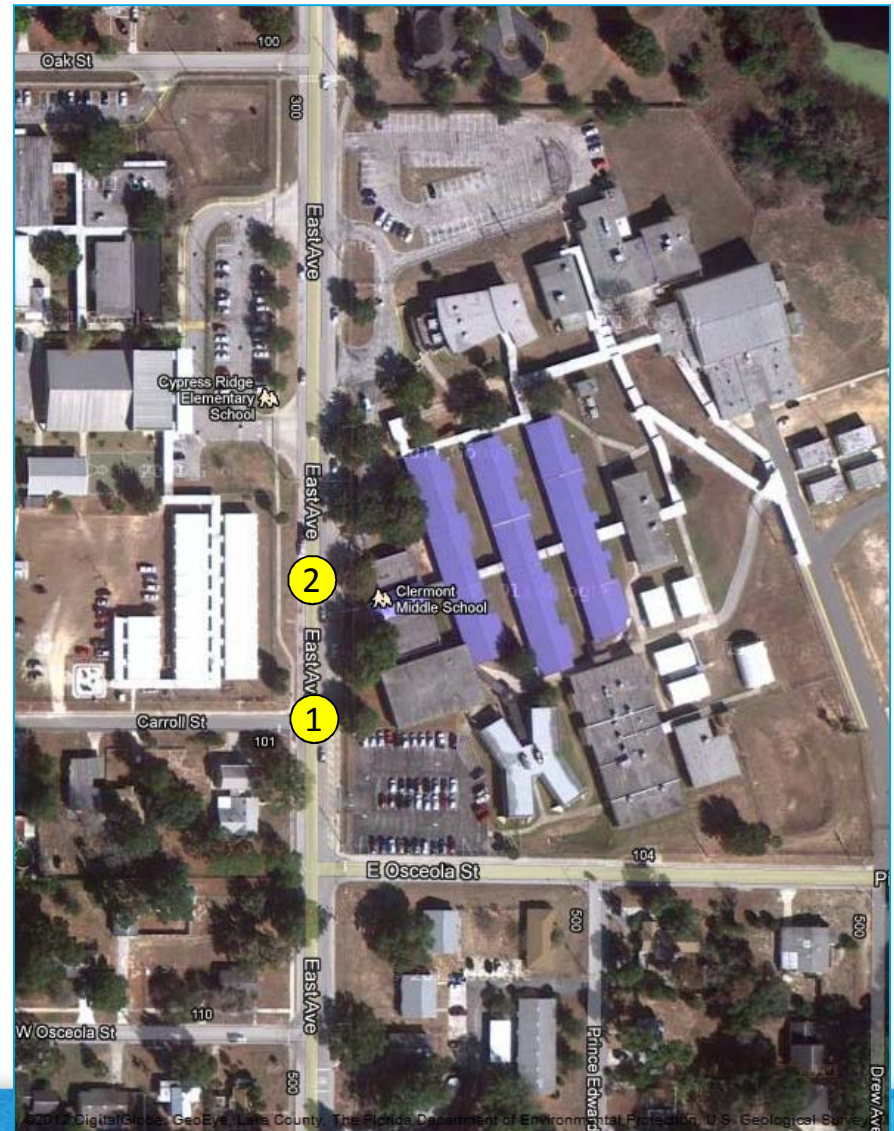

Clermont Middle School

Recommended Project #1

East Avenue Improvements

Recommendations:

- ✓ The City has planned a reconstruction and resurfacing project for East Ave north of SR 50 for fiscal year 2012. Coordinate with the City to include recommendations within the resurfacing project.
- ✓ There are two potential options for improving the crosswalk on East Ave:
 1. On East Ave, at Carroll St, construct curb extensions and new curb ramps.or
 2. In front of the school entrance, mark a new crosswalk (relocated Carroll St crosswalk). There may be issues with the grade change between the roadway and the existing sidewalk.
