

A SAFE SCHOOLS TRANSPORTATION STUDY

Pine Ridge Elementary School

Priority Project #5

Log House Rd Sidewalk from CR 561 to Lake Hasson Cir

Log House Rd east of CR 561 (south side)

Log House Rd east of CR 561 (north side)

Findings:

- ✓ There are no sidewalks along Log House Rd east of CR 561
- ✓ There are two small neighborhoods (Windscape I & Windscape III) just east of CR 561 that are within a short walk of the school; both neighborhoods have existing sidewalks that connect to Log House Rd
- ✓ Sidewalks on both sides of the street would allow students to cross Log House Rd at CR 561 intersection (with potential future crossing guard)

Recommendations:

- ✓ Construct new sidewalks on both sides of Log House Rd from CR 561 to Lake Hasson Cir / Cedar Forest Cir

Issues:

- ✓ Right-of-way availability could be an issue, although this section appears to have wider right-of-way
