RE: Waterbrooke Residential – Traffic Impact Study Submittal Response Letter,
October 3rd, 2016

The Lake~Sumter MPO has received and reviewed response letter by Little John Engineering, dated October 3rd, 2016, addressing initial MPO comments and observations to Traffic Impact study analysis. The traffic impact study was prepared to evaluate the impacts to the roadway network and intersections that may result from the development of the Waterbrooke residential project in Clermont, Florida. The project site is located south of SR 50 at Emil Jahna Road, in southeastern Lake County, and will be incorporated into the City of Clermont.

Little John Engineering has addressed the concerns and observations outlined in our review and we have no further comments at this time.

Respectfully,

Francis Franco
