### Summary

This dataset includes the base year socioeconomic data (or ZDATA) for the Central Florida Regional Planning Model (CFRPM).

### Description

This dataset contains the base year socioeconomic data (or ZDATA) for the Central Florida Regional Planning Model (CFRPM) Version 7.X. CFRPM is the travel demand model used to forecast traffic in Central Florida, encompassing all of the Florida Department of Transportation (FDOT) District 5 area, as well as Polk County and a portion of Indian River County.

The base year for version 7.X is 2015. This dataset contains the ZDATA1 and ZDATA 2 files, which have population, employment, and school enrollment data. Data is compiled from a variety of sources including the U.S. Census Bureau, Florida Bureau of Economic Resources (BEER), U.S. Department of Labor, local governments, school districts, and Metropolitan Planning Organizations (MPOs).

### Credits

U.S. Census Bureau, Florida Bureau of Economic Resources (BEER), U.S. Department of Labor, Florida Department of Transportation, Metroplan Orlando, Space Coast TPO, Lake-Sumter MPO, River 2 Sea MPO, and Ocala-Marion TPO.

### Use limitations

This data is to be used strictly for planning purposes. Although the data was thoroughly vetted for reasonableness and accuracy, it may contain errors. For the definitive source of data, please contact the appropriate originating agency.
