The IAAO "Standard on Ratio Studies", approved April, 2013, paragraph 9.1, indicates that a range of assessment level from .90 and 1.10 times the desired level of assessment is acceptable for any class of property. Thus, after applying a -15% 1st & 8th criteria adjustment factor to a Market Value indication, a Just Value/Market Value ratio of 76.5% to 93.5% falls within the acceptable range.

Based upon the facts presented herein, it is the Property Appraiser's opinion that the Market Value placed upon this property is considered to be fair and just as of January 1st. The Income, Market, and Cost approaches to value have been considered in the assessment of this property and are an integral part of the Property Appraiser CAMA. All factors considered as per F.S. s.193.011 and approved mass appraisal standards.
