
Proposed Solution

Our understanding of this RFP is that Lake County wishes to Auction its surplus vehicles, equipment, and miscellaneous items with an On-Line Public Auction Company with all items being transported to the Auction Companies Facility.

Our years of experience, specifically in Governmental Vehicles, Equipment, and Miscellaneous Auctions, allows us the opportunity to bring our knowledge of the most efficient, cost effective, time efficient and legally correct methods to an On-Line Auction. Our expertise is not in Real Estate or Personal Property; it is in Governmental Fleet Vehicles, Equipment and Miscellaneous Auctions and we offer this expertise to Lake County. When your skills are fine tuned in one field, you build a reputation that will grow and a network of buyers and clients that follow your Auctions. George Gideon Auctioneers, Inc. has developed such a rapport within our field and has proven a bountiful source for client and buyer information in the area of Governmental Auctions. Contacting buyers and putting them in touch with their buying needs as well as assisting Clients in appraisal, disposal and sometimes the purchase of particular items, has been of benefit to all concerned.

Through the years we have cultivated a loyal following of buyers from our “permanent buyers” list as well as our other “specialty buyers” list to facilitate maximum participation in our On-Line Auctions of the “Right Buying Crowd” for our clients. Our Buyers appreciate the personal touch they receive from us, by the phone calls or email they receive from our office apprising them of items to be sold that are particular to their business needs. This courtesy lets our buyers know that they are as important to us as our clients.

In this section, George Gideon Auctioneers, Inc. will outline all the capabilities necessary to handle and conduct On-Line Auctions for Lake County.

Business Core Beliefs

TIMELY MANNER OF WORK

- **George Gideon Auctioneers Inc.** believes in the timely posting of government surplus to reduce depreciation, liability, and atrophy. One of the worst things to see is the depreciation of assets over time unused or awaiting Auction, therefore, being able to act with haste in all aspects of business provides our customers and contract holders with a timely manner of operations. Our On-Line Auction program will give Lake County the opportunity to list and sell their surplus expeditiously. **George Gideon Auctioneers, Inc.** is a net 10 company, therefore, alleviating some of the wait time and restrictions of turnaround of net 30 companies.

GRASSROOTS TO NATIONAL EXPOSURE

- Never forgetting where you came from is one of the tenants of a good reputation. **George Gideon Auctioneers, Inc.** started small and has grown into one of the largest Government Surplus operation in Florida. Being able to connect to buyers from down the street or internationally keeps us humble, approachable, knowledgeable and promotes our contract holders best interests when it comes to reputation and the good faith bidders have in us and our program.

NO COMPARTME- NTALIZATION

- While there are benefits to having one person focus on one specific task, we do believe that the broad understanding of other aspects of the company is beneficial to the knowledge provided to our employees. Being able to answer basic questions about other departments increases customer satisfaction from lack of playing a game of “ping pong” between employees searching for an answer. The ability to perform basic tasks in other departments helps provide a timely manner of work for our contract holders and customers.

CHRONOLOGICAL OPERATION OUTLINE FOR AUCTIONS

For your Auctions George Gideon Auctioneers will do the following in the order listed:

Since our reputation is tied to your Auction, be assured that Lake County will receive the full scope of our knowledge and expertise to ensure a successful Auction.

AGENCY / VENDOR RESPONSIBILITIES

Lake County will be responsible for the following On-Line Auction Process:

- Provide an approved list of surplus items with descriptions
- Requesting a pickup of items from their facility
- Loading all items onto a freight trailer at their facility
- Delivering all vehicle titles to **George Gideon Auctioneers, Inc.**, at time of pickup of vehicles from Lake County

George Gideon Auctioneers, Inc. will be responsible for the following On-Line Auction process of items sold at George Gideon Auctioneers facility:

- Uploading pictures and descriptions
- Uploading videos
- Start and Stop Times
- Ability to set an "Auto Extension of the Auction Time" option
- George Gideon Auctioneers will field all calls regarding County
- Hosting and maintaining a website, and creating a home page for Lake County On-Line Auction
- Collecting all proceeds from the Online Auction
- Collecting and remitting to The State of Florida Department of Revenue all sales tax collected
- Transferring all titled items in accordance with The State of Florida Department of DMV (Buyers fees will apply)
- Contacting know buyers
- Advertising as previously outlined.
- Send blast email to our data base of customers in regards to Lake County's On-Line Auction
- Provide an On-Line Auction settlement and payment to Lake County in net 10 days of final buyer payment of On-Line Auction
- Provide all reconciliation work in accordance with the need of Lake County

ON-LINE AUCTIONS

System software, installation, and technical support

George Gideon Auctioneers, Inc. operates its On-Line Auctions with a national software provider, which adds custom features such as pictures, videos, descriptive information of posted items, and accounting. Our national program is a tried and true On-Line Auction program that has an exemplary record, as professed to by its widespread use in the On-Line Auction industry. Our system is entirely web base and require no installation of downloads of programs to Lake County's computer system. These systems ae fully compatible with window or mac operating systems. We also have a mobile application, which works on any smart phone or tablet taking pictures and descriptions an easy task to be done on the fly, or in the field. All of this is available to Lake County, at no additional cost.

On-Line Customer Support for Bidders

George Gideon Auctioneers, Inc. has email and phone lines available for Customer questions and client convenience.

Security

Our API (application program interface) is specifically designed to safeguard our clients' information. Also, being that we are cloud-based means that your data is backed up and not just on a personal computer which is subject to failure and/or theft. No one can get access to your data without your password.

More internally, SSL (“Secure Sockets Layer” is the standard security technology for establishing an encrypted link between a web server and a browser. This link ensures that all data passed between the web server and browsers remain private and integral. SSL is an industry standard and is used by millions of websites in the protection of their online transactions with their customers) ensures that you and your team are entering the correct information into the correct areas, and it will flag you if there is any human error.

Our website servers have multiple backups across the nation, so if one should fail another will immediately take over operation of the website.

ONLINE AUCTIONS HISTORY, BID VALIDATION & BID DOCUMENTATION

George Gideon Auctioneers Inc. has been active within the online Auction market for the past twenty (20) years and facilitated the Auction of 100+ Million dollars in that time from Central Florida Agencies alone.

George Gideon Auctioneers Inc. builds, maintains, monitors & updates a website open to the public 24 hours a day, 7 days a week and 365 days a year for purchasing of Government surplus with a detailed bid history, including bid amounts in chronological order.

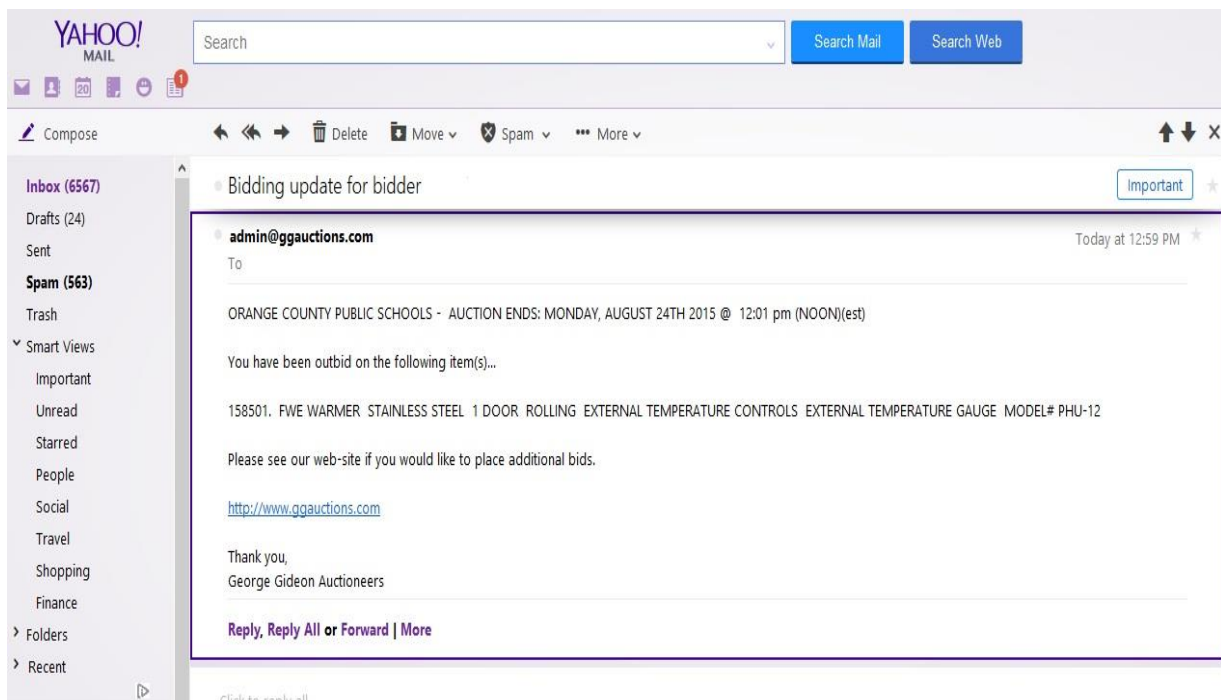

A server running 24 hours a day, 7 days a week and 365 days lets bidders know when they have been outbid.

Below is example of the **Bid Documentation**

Note: If the last bidder is different than the winning bidder, the winning bidder has previously placed a MaxBid.

Below is an example of an email sent informing the previous high bidder that they have been out bid. **George Gideon Auctioneers, Inc.** systems provide bidders with up to the date notices regarding active bids, whether they have been rejected or outbid. Making bidders aware if they are interested in the item and need to place a new bid. **George Gideon Auctioneers, Inc.** utilizes tools to assist in verification of bidders thus avoiding fraudulent bidders from registering. This tool cross references all bidder data and alerts our administrator of any possible threat. From there the administrator goes on a case by case base and verifies wither the bidder is eligible for bidding privileges. Lake County will also maintain the ability to block any user from bidding privileges on any of your On-Line Auctions. This is done to help maintain successful bidding, payment and completion of your On-Line Auction.

WEBSITE AVAILABILITY & BID EXTENSION

The website is available to the public 24 hours a day, 365 days a year for unhindered bidding.

There is a bid extension feature that puts an end to “Auction Sniping,” as well as serving the dual purpose of gaining maximum revenue by creating a live Auction feel. This feature is adjustable to any time limit the Government Agency wishes.

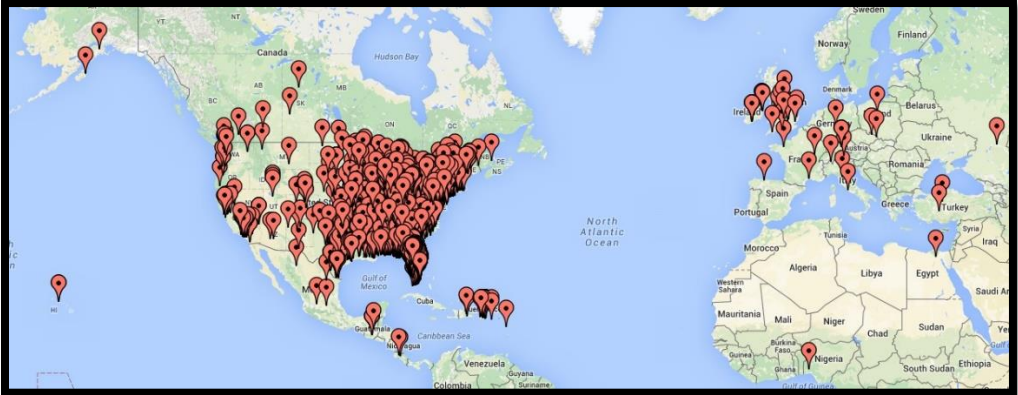

WEBSITE VISITORS, BIDDER LOCATION RANGE & AUCTION INVOICES

George Gideon Auctioneers, Inc. has over 40,000 bidders registered that includes local, national & international bidders and have had items bought and shipped to locations as far away as Africa, South America, The Middle East, Asia, and Canada.

All winning bidders are emailed an invoice confirming their purchase

Our primary mailing list is comprised of Auction attendees over the past twenty-five (25) years. This list is categorized as to each individual's purchasing preferences and distances they are willing to travel. Currently, this list numbers over 40,000 companies and individuals. Please note that our list is of previous live auction attendees as well. We feel that by emailing those that have been to a live Auction in the past on average nets greater interest as they took the effort to be part of a Auction. By mailing to past Auction attendees, we are able to inform the buyers that made someone else pay the top dollar, and are still in the buyers market.

Below is a map of our current buyers located near your location and of those around the world that we sell to.

Below is a listing that is taking advantage of the Bid Extension feature:
