

Financial Stability

Royal Auction Group Inc has the necessary resources (human and financial) to provide the services at the level required by Lake County. Royal Auction Group has been in business for over 50 years and has been growing by over 25% YOY for the past two consecutive years. Royal has never had to close our doors to service and has never lost a contract. We have the financial backing, and the employees to handle as much surplus inventory as you are able to send.

Royal Auction Group also has growth plans for 2022. We plan to open our third Florida location which we are confident, will help in handling this RFP.
