

Appendix D

To Whom It May Concern,

Based on the information provided, the primary operations of Oceanside Electronics, Inc are not regulated by the No-Exposure Certification and do not warrant permit coverage at this time. The department encourages that best management practices and good housekeeping measures are in place to address the routine maintenance that occurs on-site. Should there be any changes to the on-site activities, please contact the department for further evaluation.

Please feel free to save this e-mail for your records and let me know should you have any follow up questions.

Thank you!
