

SECTION 4. SUBCONTRACTORS

Specialized Sub-consultant's

Based on our past and current working relationships, we have selected the following firms who have repeatedly been able to help our local agency clients "pave the way" for their citizens on local transportation engineering projects and we are committed to doing the same for Lake County. The team of professionals selected for this contract was based on identifying those that best qualify for the County's needs based on individual expertise previous successful relationships, and the fact that these firms worked with us on recent Lake County Projects. You can be assured that the team identified in the Organizational Chart will be the team that serves Lake County with TEDS.

Tierra, Inc. **(Geotechnical)**

Tierra has been working with TEDS since 2013

Tierra began operations in Florida in November 1992 and has offices in Tampa, Winter Garden, and Pensacola, Florida. Tierra owns and operates one of the largest and modern geotechnical drilling operations in the State of Florida and are available to support our client's needs. This is important when schedules are short and subcontract drillers are too busy to meet the needs of a project. Tierra provides clients with high- quality professional services, timely scheduling and economical engineering solutions in return for fair and reasonable fees. Tierra has worked with TEDS for past 8 years.

SECTION 4. SUBCONTRACTORS

BFA Environmental-Barnes, Ferland and Associates, Inc.

(SUE)

BFA has been working for TEDS since 2009

BFA is a certified minority/disadvantaged business with more than 10 state and local government agencies. BFA is DBE certified with FDOT and a graduate of the SBA 8(a) program. BFA is a Florida firm with its main headquarters in Orlando and satellite offices in West Palm Beach and Miami.

Terracon

(Environmental)

Terracon has been working for TEDS since 2009

Terracon is a 100 percent employee-owned consulting engineering firm providing quality services to clients. Since 1965, Terracon has evolved into a successful multi-discipline firm specializing in environmental, facilities, geotechnical, and materials services. Terracon serves a diverse portfolio of private and public clients. By being responsive, resourceful, and reliable, we strive to exceed our clients' expectations for service, solutions, quality, and speed of delivery. Based on a deep understanding of our clients' needs, Terracon's commitment is centered on these key objectives.

SECTION 4. SUBCONTRACTORS

Florida Bridge and Transportation, Inc. (Structures)

FBT has been working for TEDS since 2009

Florida Bridge and Transportation, Inc. (FBT) specializes in the design of transportation related structures. The people at FBT have designed over 200 bridges. FBT's design experience includes all types of bridges ranging from low level water crossings to long span bridges over interstate routes. A significant portion of their projects include serving as a Specialty Engineer working directly for contractors. FBT is prequalified with FDOT in the categories of 3.1 Minor Roadway Design, 4.1.1 Miscellaneous Structures, 4.1.2 Minor Bridge Design, 4.2.1 Major Bridge Concrete, 4.2.2 Major Bridge-Steel and 5.4 Bridge Load Rating.
