Statement of Qualifications

Direct Push Services LLC (DPS) is a geotechnical and environmental drilling contractor that has been incorporated in the State of Florida for ten years. DPS provides geotechnical and environmental drilling as well as In-situ testing to engineers and geologists in the private, commercial, and municipal sectors. Over the past ten years DPS has completed over five thousand projects for customers in all regions of the state. DPS operates and maintains a fleet of drill rigs and support vehicles needed to complete each project. The company employs experienced drillers that have over twenty years of combined experience. Employees stay current on safety training and certifications needed. DPS employees are certified in MSHA, OSHA, and on-site training for most major utility plants in the state. The company is fully insured, carrying multiple policies that exceed industry standards. A sample of projects and services performed are listed below.

Grindley Williams Engineering - Geotechnical drilling on over 1,000 sinkhole investigations.

Nova Engineering - Drilling for high rise office and condo buildings in Tampa, FL.

Andreyev Engineering – Geotechnical, environmental, and In-situ testing on numerous projects for all sectors.

Florida Geotechnical Engineering – Drilling for over 1,000 sinkhole investigation, environmental assessments, and commercial design projects.

S&ME – Geotechnical drilling for commercial development, industrial design, and phosphate mines.

AMEC – In-situ testing on several earth dam projects.

Terracon – In-situ testing and geotechnical drilling on commercial and municipal projects.
