## Section 4 – Subcontractors / Joint Venture

### Subcontractors

During the assigned projects, MAS intends to perform the majority of the work with company employees and maintains responsibility for all work performed under this contract. However, some specialized tasks will be outsourced. We have a comprehensive subcontractor assessment and evaluation plan, which includes reviewing licensing and health and safety records and minimum insurance requirements. To ensure that the chosen subcontractors perform as expected, MAS has instilled a multi-step vetting system which includes:

Careful selection of subcontractors for each project assignment, based on subcontractor location, workload, and expertise.

Written scope of work that is clear and concise to avoid miscommunications and on-site issues.

MAS staff oversight of subcontractors to eliminate misunderstandings and on-site issues.

MAS will use Florida-licensed environmental well drilling companies to install temporary or permanent monitoring wells to facilitate the collection of soil and/or groundwater samples. These drilling companies may include Preferred Drilling Solutions and Environmental Drilling Services, Inc. The drillers will only operate under the supervision of MAS field staff, and will be selected based on availability and daily rates. Please see below for further details regarding the chosen drilling companies:

Company Name	Address	Individual's Name Assigned	Drilling License Number
Preferred Drilling Solutions	8820 66th Street North Pinellas Park, FL 33782	Kevin Bonacum	2613
Environmental Drilling Services, Inc.	4712 Old Winter Garden Rd Orlando, FL 32811	Carl Leonhardt	2406

MAS does not intend to perform the services noted in RFP #22-903 as a joint venture with any other companies.
