Subject: RE: Two (2) Asphalt Patching Trucks (P.O. #20160892)

Steve,

We would like to proceed with the order for these two asphalt patching trucks. We are agreeable to modifying the fuel tank from a 70 gallon tank to a 50 gallon tank with the associated \$98 savings per truck. Please let me know if you require any additional information. Thank you!

Subject: RE: Two (2) Asphalt Patching Trucks (P.O. #20160892)

Hi Brenda,

Please see the attached price list for the fuel tanks offered in the DuraStar model we bid.

We have highlighted two fuel tank options, the 70 gallon that is not available and the 50 gallon we are proposing.

The difference in price is \$98 less per truck for the 50 gallon fuel tank.

Please let me know if you have any further questions.

Thank you Brenda,

Steve Jenkins

Good afternoon Steve,
Is there a cost savings associated with providing the 50 gallon fuel tank instead of the 70 gallon fuel tank? Thank you in advance for your assistance. ☺

Subject: Two (2) Asphalt Patching Trucks (P.O. #20160892)

Good Morning Brenda,

Thank you for meeting with Jason and me this morning.

We are very happy to have been awarded the bid for the two asphalt patching trucks and have been working to integrate the Bergkamp body with the International chassis for the last 3 weeks.

Working with International, we have been able to engineer the trucks to accommodate the Bergkamp wet spline PTO. There is one exception that International is telling us we cannot deliver, that is a 70 gallon fuel tank.

This is frustrating and embarrassing to us as we bid a 70 gallon fuel tank to meet your bid specifications. At the time of the bid there was no restriction from International advising us that we could not build these trucks with 70 gallon fuel tanks.

When we submitted the two orders for the test order process, we were made aware of the issue of the 70 gallon fuel tank not being available with a crew cab (4 door cab) and the wet spline PTO from Bergkamp.

I apologize for this delay in placing your orders. We are asking for the County's permission to deliver a 50 gallon capacity fuel tank on each of these trucks that will be mounted under the driver's door per our original bid.

If the 50 gallon capacity fuel tank is acceptable to the County, we will place the two truck orders immediately and this may delay our delivery date by no more than 30 days.

If you or anyone at the County has any questions please contact me at your convenience.

Thank you again Brenda,

Steve Jenkins
