Details

I have seen the county spend money on the shoulder of Thrill Hill rd, Bill Collins, Maggie Jones and other roads that did not have a problem with the shoulder washing out. However, I have contacted the county several times about the shoulder in front of one of my properties on 20849 Reedy Road washing out and nothing has been done. The hole has been undermining the road on several occasions and I have filled it. It continues to wash out and is very dangerous if someone happens to run off the road. When the road was paved, the county placed sod on the north side to stop any washing; however, nothing was done on the south side. The shoulder has washed down the road in front of my 20931 Reedy Road property until it is quite a bit higher than the pavement. Please fill the wash out and place some sod to keep the dirt in place until the sod can get established. That should eliminate the problem. Thanks Ronald F. Fort 20931 Reedy Road Eustis, Florida

For Work by Maintenance Area, See MA3-10561-WO

History

9/25/2009 I will investigate your problem. I don't recall ever dealing directly with you on your washout issue, but I do remember some years back having a right of way or was it a beyond the end of county maint. issue at the end of Reedy Rd. The safety of the public is a priority with me. The reason for the swale work you mention in your e-mail, are as follows: We received complaints that Thrill Hill was having a water standing in the road problem, in the bottom. The swales are designed to catch and hold the water out of the road. On Bill Collins we received a complaint of a drive way being washed out every time it rained. After investigating the complaint I constructed the swales and as of yet the driveway has not washed out since. I dug the swales along Maggie Jones Rd. because the water was constantly standing in the road which was significantly contributing to its deterioration. Before any shoulder work is performed on a county maintained road, a right of way check is done. If there is no right of way, it is considered private property, and we will do what we can to protect the road itself, but nothing more. I am forwarding this e-mail to my secretary for her to make up a request. Can you give me your phone # so I can contact you, and hopefully we can take care of this problem.

Dean, Randy

9/28/2009 ROW - 25 ft on North side of road.

Wall, Treeva

9/29/2009	Waiting to see if Dennis Warren will authorize swale work.	Dean, Randy
10/14/2009	Requested contract work. 1,600 ft.	Dean, Randy
1/15/2010	No funding for contract gradall work. Will need to be done by Maintenance Area.	Warren, Dennis
2/11/2010	Requested contract sod installation.	Lee, Steven
