Guys

You know how many easements we have in yards, pastures, woods, ect ? If it is a small area, we can loan BEN a sprayer to herbicide 3 times a year. BEN was told we would not maintain for "looks". He said he would maintain. Tks

This is the job Dennis told Ben to go weed eat it himself back a year or so ago. I told Ben this would happen if he did it, and he said he didn't mind doing it because she was a friend of his or the mother of a friend, anyway This is not the first time we have had similar complaints from this "friend" and we have told her no in the past. As you can see it is in a pasture behind her house. I know we are supposed to go the extra mile and I will if you want me too, but this request I feel is unnecessary and doing this will put other necessary jobs even further behind.

Randy, please look into this and get back with me.

Thank you,  
Lori

**Subject:** FW: Complaint

Hey Lori, this issue is re-occurring. When we completed the Chisholm Trail drainage improvement Ben borrowed a weed eater from the Maintenance Barn to clean up the weeds. It appears that Ms. Isgett is looking for more routine maintenance of the area now. Please review. Thanks, Mary

Mary, Here are two pictures of the out-fall area on Old Chisholm Trail. Mae Isgett is complaining about the high weeds in the drainage easement area. This is located behind her house at 15446 Old Chisholm Trail. She is requesting that some maintenance be preformed. There is no water in the canal at this time.
