I called Sal just now and he just ain't getting it. I told him about my knowledge of Marshall and his neighbor Audie Harding and he said he gave us 50 ft of right of way and I told him we have no record of that to my knowledge and he said well then I will take my 50 ft. Back. I said he can't take back what he never gave and he started laughing. He said he wanted to call me back and asked for my cell and I told him to call my office and I would call him back. He said he is the hot dog man on 44 and for me to come by and he would treat me to lunch and we could talk about it, but he had to go because he had a customer.....If he's talking all beef franks, with no limit, he's getting a road!

How far do i keep dealing with this guy, he' not listening.

Returned your call. He wants you to call him. He doesn't sound happy.
