RE: Lives on a private sand road. Needs help with maintenance. I referred her to the Umatilla Maintenance Barn to see if they can do a one-time maintenance. She said some residents are trying to improve the roads – and others are blocking off portions of Right-of-Way that they consider their personal property as they don't want anyone touching what they consider their property. They are having what she called "road wars".

Although I did refer her to call the Umatilla Maintenance Barn, she does want to talk to her Commissioner. Please call.

Jodi
