I just now called him and told him we are digging the swale tomorrow. He said he don't have the money to do the aprons legal, (you should check out his boat, other toys and house, as well as another house and boat in Sanford). He told me he ran the water guys off from marking , I told him not to do it again, and we will be in there tomorrow. He said he can't afford to repair the sprinklers by the road, I told him we would do that for him. He said this will cause him a divorce, I sympathized with his situation. He told me I was his worst nightmare, I told him he was mine as well. Steve will be there on site the entire time we are doing this job.

Randy,

Mr. Teaters wants you to call him. "Very important. Very important. Very important." (He said that repeatedly.) He didn't like Steve's answer, and wants to talk to Steve's boss.

Steve,

Richard Teaters wants you to call him – 407-247-5166.

He most emphatically stated that he does NOT want a swale. He says that a swale would make him very unhappy, and wouldn't solve the problem. He says that his significant other would slit his throat.

Thank you,

T
