We are still dealing with this guy. We told him he will need to pull a permit no matter what for the TWO drive ways he is currently using, and we told him all we will do is put a swale in. He said his girlfriend did not want a swale and they want a drop box with buried pipe like the rest of his road has. We said a swale is all we are doing. He said what if he buys the pipe, we said a swale is all we're doing. He said what if he pays for it all. I ask you, "what if"?

Randy,

Please look in to this one. Sid says that the driveway for this residence is not permitted and the swale has been filled in.

Thanks,

Jeff, I spoke with Dick Peters at 24451 Bonnet Rd. in Astor about water ponding on Bonnet Rd. and in his yard. He was also concerned about the driveway apron not being replaced after a stormwater project was completed in 2006. Project # 2006-07. The plans show a swale in front of his property. It looks like

the swale was filled in, probably during the construction of a new residence in 2008. Permit #2008060538. Mr. Peters phone number is 407-247-5166. AK 1514428. I am also going to look at a complaint at Robie ant Center St. in Mount Dora. Belinda Stum. Phone 407-312-1170. She is concerned about gravel and millings washing down to her property.

Thanks,

**SID MARTIN**
