Jeff-  
We received complaint from Mr. Buddy Atkins- 1826 Gertrude Place; Phone 267-9086: regarding roadway runoff eroding property.  
There are no easements in this circa 1950's platted subdivision.  
Sid's site visit did note a need for some storage up hill in roadside swales. Not sure if you have had negative reaction to swale work in the past in this area.  
Mr. Atkins has also called and spoke with Jim Stivender on this.

Please let me know your teams follow up. I would be glad to assist in site visit to discuss "c" type drainage profile with Mr. Atkins and that from time to time there will be rain events where water will come out of any constructed swale or channel we may put in our R/W to address his concern.

Also got a call from:  
Terry Toole 1710 Morningside Dr. 352-217-5820 Advised that drains on Southland plugged and her yard was flooded. She requested someone respond and clean drains.

Thanks

Nicholas Mcray, CFM
