Jeff,

Here's the information Randy asked me to send you.

Thank you,

T

Years ago, Christian got involved with this when the main office received a call about a "sink hole" that had opened up underneath one of the trailers. There is a drainage pipe that actually runs under several of the trailers in that park. I'm trying to remember what Christians thought were, you know how that goes. I think he was going to get with the City of Tavares to work with them because water from Old 441 **ALSO** used that drain. It was never mentioned to me again until now.

Treeva, please send Jeff any past history, if there is any, as well as the info you just gave me.

Randy,

Steve called and asked me to see if there are any drainage easements. I don't find any. I put a map and the plat book page on your desk.

Steve,

Please provide me with some background on this issue.

Thanks,

Jeff Johnson

Subject: Call from Citizen about subsidence in driveway.

Jeff,

I received a call from Ms. Vira Dell'Grottaglia at 134 Irwin Drive. The address is a mobile home lot in Tranquil Ct. off of E. Alfred St. in Tavares. Apparently she had talked to Steve Lee @ Maintenance and reported her concern. I'm assuming Steve let Brad Hayes know since it is in the City of Tavares. The citizen said that Brad stopped by and told her he wasn't sure what was causing the problem and left the site.

She phoned me thinking she would get Sam Cauley. Apparently he had gone down and done some minimal survey.

It seems like a City responsibility but since she contacted the County, I wasn't sure of the extent of our responsibility.

Her Phone number is: 352-742-0187

Thanks.

Rick J. Travis, P.S.M.
