Dennis, both surveying and right-of-way are under Fred Schneider. I've copied him on your request.

Please let him know your timeframe on this so that he can schedule accordingly.

Thank you,
Lori

Lori,

Good morning the County Attorney only wants photo evidence of were the RW ends near his property to show how much debris is on our side. We are taking him to court for an injunction. So the stakes would be great for the visual and photos. We are happy to accept any other documentation as well. Thanks

Jamie, are you requesting that the right-of-way be staked at this property location? Perhaps if we provided the information to you in a document it would better serve your purpose. Stakes do not tend to stay in place for long (removed by others) and would take some time to coordinate the work.

Thank you,
Lori

Good morning,

We have a case for a property located at 27904 Hibiscus Ave, Paisley that we are pursuing further legal action on. The owner has dumped concrete and asphalt debris on his property and it has spilled out into the right of way on Washington Drive, possibly blocking access to this road. I was asked to check with Public Works to see about going out and stake out (survey) the entrance to Washington Drive and also near the piles on the property. Please feel free to contact me if you have any questions.

Thank you,
