Details

N3-8980-01 - (ROW 50 ft) - Citizen says that we put down millings several months ago, but didn't do enough and he has a drop-off / washout at his driveway. He says that he was told that he could purchase millings from us, and wants to do that. I told him that we don't sell millings, but offered to take a message for a Supervisor to call him back. He told me that I was wrong, but eventually gave me his name and number.

Notes

History

3/24/2016 Spoke to citizen and gave him information about purchasing millings privately.

McCall, Truman

N3-8980-01 (ROW 50 ft) - Citizen is very upset. He is a bus driver for Spring Creek Charter School, and parks his bus in his driveway. He says that we didn't put enough millings down the last time, and the millings ended half way across his driveway. He says that there is a big hole on the South side of North Rd at the intersection of North and Georgia. He says that he pays taxes just like everybody else, and wants this fixed properly.

Notes

He also called over to the ROC and asked for Jeff.

Subject: North Rd

Randy,

Wesley Locke, Principal of Spring Creek Charter School (669-3275) called and left a message yesterday afternoon. He says that his driver, Kevin Hanley, parks his school bus at his home on North Rd. He says that Mr. Hanley wants to get some millings that he can put in his driveway.

In the packet that I gave you yesterday was a request from Mr. Hanley, dated 03/24/16. On that date, he said that he was told that he could purchase millings from us. Truman called him back and explained that we don't sell millings and explained that millings can be purchased from contractors.

Thank you,

Treeva Wall

I called to talk to Principal Locke but his secretary said he was in a meeting and asked if she could take a message. I explained to her that me and Jeff looked at the issue yesterday and the road is very much passable and that the issue is in Mr. Hanley's driveway so there is no more that we can do. I asked her to pass along that Mr. Hanley could help the situation tremendously by wetting the sandy area with a sprinkler. She said she would pass along the message and wished me a merry Christmas.
