Subject: RE: PHONE CALL - Steve Klimkowski - Condition of Scrub Oak Lane

Jodi,

One of my supervisors took a look at Scrub Oak Lane yesterday and found it to be passable (attached are a few pictures for reference). The same supervisor contacted Mr. Klimkowski to let him know our findings and to see if there was an interest in the special assessment program (there was not). There was a request for additional millings to be placed on the road; however, considering the road's condition and our limited supply of the millings, it would not be a good use of the material. Mr. Klimowski said that he will contact the Umatilla maintenance barn should the condition of the road change.

Please let me know if additional information is needed.

Thank you,
Lori

Re: Condition of Scrub Oak Lane

Mr. Klimkowski would like to speak to you about this. When the County comes out with their big trucks and says the road is passable, he can guarantee the road is not passable for a regular sized vehicle.

Mr. Klimkowski said if you tried to drive down Scrub Oak Lane right now today you wouldn't be able to get down the road if you were driving a regular car. He stated that the County laid down an asphalt base on half of the road and clay on the other half of the road which has made the situation worse. If the County could finish asphaltting the rest of this road, it would make life easier for everyone out there.

Lori – can we check out the condition of Scrub Oak Lane? Is there anything more the County can do to improve the conditions of this road?
