(Please reference the permit number/item number on all correspondence.)

Dear Mr. Mcray:

On January 26, 2017, the St. Johns River Water Management District received your application, construction plans, and determination fee requesting an exemption verification for the above referenced project. Based on this submittal, the proposed project involves maintenance dredging of 0.002 acres of sediment in the Hibiscus Canal.

Pursuant to 62-330.051 (7)(a), Florida Administrative Code (F.A.C.), an Environmental Resource Permit is not required since the project meets the exemption requirements.

Please be advised that this determination only applies to the District and does not relieve you from the permitting requirements of other agencies.

Thank you for your cooperation with the permitting and compliance process. If you have any questions, please contact the District at (407) 659-4833 or by email at wcarlie@sjrwmd.com.

Sincerely,
