Subject: RE: FW: FW: road erosion

My apologies for not clarifying ... property owners would need to arrange for tree trimming.

Who would be in charge of that?

Martha,

The road you are referring to would have to be tree trimmed before we could ever get our equipment in there to do anything to it. Also, the only material we have to place on non-maintained roads is clay, and that will turn to mud in rain.

my neighbor had to dig their car out of the road...if that counts for something... I live on the west end of Sleepy Hollow (Sleepy Hollow and Duxbury) where the e-ticket ride (giant dips in the road) is. When there is a heavy rain all those dips fill with water. I know that some of the residents are not in favor of paving...can we get a load of gravel or something to put in the extreme wash out places at least. Please let me know Thanks Martha Kilmer

Hi Martha, I was out in your neighborhood earlier today and you are right about the roads being rough.

However, I was able to drive through in my County Pick-up in 2 wheel drive, which according to our policy deems the roads passable to all emergency vehicles. I urge you and the residents of your community to contact Jeremy Rodriguez at 352-253-6019 for information on paving your roads under our special assessment program.

Subject: road erosion

I live at 26443 Sleepy Hollow
Street,in Mt.Plymouth. Due to the recent rains our road is washing away. It is becoming a hazard to vehicles
navigating it and those of us
who live on this road. Most of the roads here are unpaved and mine is no exception. Please have someone
come out here and survey the damage and fix the problem areas. You might be hearing from others than
myself. Thank you
