I just got off the phone with Mr. Greenhill and he went on and on about all the water and washing issues. He was nice and **he was not interested in an S.A. He said** he lives on the upper side and takes care of what's in front of his house, and it's those fools that built their houses in the neighborhood retention pond that has the problem. He warned me about when I talk to Mr. Nuckoles, that he is going to rip me a new one because he is mad.

Subject: Request for Special Assessment Information - Oden Street

Jeremy –

I received a call regarding impassable roads in the Mount Plymouth area, specifically Oden Street and Sleepy Hollow off of Biltmore St. There have been several inquiries over the years regarding special assessments. According to the gentlemen that I talked to, there has been a lot of turnover in the property owners and he believes the community is ready to move forward with the special assessment. I briefly explained the process but told him that I would provide his information so that you could email him information on the special assessment program.

Kevin Greenhill

Seabass660@gmail.com

I have attached documents that I used during the inquiry for this area when I was in that position. Hopefully you find this information helpful!
