Re: Johns Lake Rd at Citrus Tower Blvd

Dear Mr. Dewitt:

Regarding the Traffic Signal at Johns Lake Rd at Citrus Tower Blvd:

Set up intersection to run Temporary Controller Timings per plan, assuring that movements phases 4 & 8 flash Yellow and phase 2 flashes Red.

It may be necessary to increase Extension Time for phases 4 & 8 due to the lack of advanced loops on side streets temporarily acting as the main street.

Coordinate with Steve Bollinger at Lake County Traffic Operations during the signal turn on phase. You can reach Steve at 742-1766 and email at [sbollinger@co.lake.fl.us](mailto:sbollinger@co.lake.fl.us).

Please contact me at (352) 253-4950 or email me at [fschneider@co.lake.fl.us](mailto:fschneider@co.lake.fl.us) if you have any questions.

Sincerely,

Fred Schneider, P.E.  
Engineering Director
