The complaint was Hwy. 27 was backed up from Main St. south to Singletary Park. It could have been a couple of heavy traffic days. I have not seen a major problems but they ask me the questions.

Also Is there a minimum height at the bottom of a traffic signal on a state highway?

Thanks  
Jimmy

27 between SR 44 and 441? Do you know if the problem is with all signal or a section of signals?

Thanks,  
Denis

Denis,

I have received a couple of complaints regarding the traffic signal timing along Hwy. 27. Have you had any complaints from anyone else? Has it been checked recently? Last question, is it scheduled to be checked in the future?

Jimmy
