Subject: Swale Installation in front of Mack Concrete, CR 561, Astatula

Requesting permission to use a higher priced vendor, Estep Construction for the installation of the swale in front of Mack Concrete in Astatula located at 23902 CR 561. During this week, we have submitted two other work requests to Thunderhole, Inc. for swale installation located along Lakeshore Drive in Mount Dora and Oswalt Road in Clermont. The area in front of Mack Concrete is causing water to stay on the road in a highly traveled area and creating a safety hazard. Due to scheduling and the smallest price difference on the CR 561 job, I am requesting approval to issue the CR 561 work order to Estep.

Lakeshore Dr., Mount Dora (Thunderhole price \$2,537.80, Estep price \$3,035.80) Difference of \$498
Oswalt Rd., Clermont (Thunderhole price \$10,624, Estep price \$13,440) Difference of \$2,816
CR 561, Astatula (Thunderhole price \$19,646.10, Estep price \$19,882.80) Difference of \$236.70
