TODAY'S INSPECTION IDENTIFIED

- Plants touching the structure creating a bridge for pests to gain access to the structure.
- Honeydew producing insects on plants creating a food source for foraging pests.
- More than a 2 inch depth of mulch applied to the ground around the structure, creating a conducive habitat for pests.
- Buildup of spider webs/wasp nests.
- Excessive moisture around the exterior of the structure.
- Window screens, door thresholds/sweeps or weather-stripping in need of repair.
- Structural cracks or gaps around window or door framing that could allow pest access into the structure.
- Openings around pipes, conduit or electrical wires allowing pests or rodents access to the structure.
- Uncovered garbage cans or pet food providing food and harborage for pests.
- Other: (see comments) 11-20//0

"Protecting Health, Food and Property"

Massey is committed to the health and safety of our customers and Team Members. All materials selected for use on your property have been registered for use in pest management by the United States Environmental Protection Agency and have satisfied our own test evaluations. To further promote safety, please comply with all instructions and recommendations.

COMMENTS AND RECOMMENDATIONS

Today I THREW A BEE HIVE IN THE TRUCK AND SEALED ENTRY HOLES. ACTIVITY SHOULD CEASE IN 24 HRS.

Thank You
