**Subject:** RE:

Good morning David,

Thank you for sending the quotes to repair the various guardrails on CR 561. Two of the four quotes have incorrect pricing based on the contract (Contract No. 11-0604C). Please revise the quotes for G3047-D and G3047-E as outlined below. Thank you!

- The quote for G3047-D has an incorrect price for offset blocks (Line No. 8). The correct contract price for offset blocks is \$8.00 each. Please reduce this line item by \$1,197.00. The guardrail posts (Line No. 6) should be charged at \$65.00 each. Please increase this line item by \$195.00. The total repair cost for this guardrail should be \$2,185.00.
- The quote for G3047-E has an incorrect price for offset blocks (Line No. 8). The correct contract price for offset blocks is \$8.00 each. Please reduce this line item by \$49.00, for a total repair cost of \$811.00.

Should you have any questions, comments or require additional information, please do not hesitate to call or email my office. Thank you!

**Subject:** FW: Outstanding Guardrail Repairs/Invoicing

**Importance:** High

Good morning David/Connie –

Please see below email that was sent back in July regarding our inability to process some of the invoices because the asphalt work was not completed. Invoice Nos. 5962 and 5964 cannot be processed as submitted because the asphalt paving was not done. Please do not submit these invoices again until the asphalt paving has been completed.

Please note that pursuant to Contract No. 11-0604C between Southeast Attenuators and Lake County there is language provided to assess the contractor a re-inspection fee of \$80 per inspection required after the initial inspection due to deficiencies or incomplete work. This language can be found in Exhibit C, General Terms and Conditions; Section 20, Final Inspection; Paragraph C.

Thank you in advance for your prompt attention to this matter.

**Subject:** Outstanding Guardrail Repairs/Invoicing  
**Importance:** High

Good morning David,

My office received the following invoices (5962, 5963, 5964, and 5965) for the guardrails (G3047C-F) on CR 561. We cannot process these invoices at this time because the asphalt paving at the base of the posts has not been completed. The damage at the end of guardrail G3047C has not been completed either. Please coordinate with Bob Baker when these repairs are going to be completed so we can re-inspect the sites and process these invoices.

There has been another accident to the guardrail G3047C which is located in one of the newly repaired areas, which did not have the asphalt bases completed. Since the asphalt repair has not been completed, we can remove the cost for the asphalt paving from the last invoice 5963, but the work would need to be completed on all posts on the next repair. Bob will send you the paperwork for the newly damaged area, please send a quote so we can approve and possibly schedule

all repairs for the same time. The repair for the new damage on guardrail G3047C will need to be quoted separately from the previous work orders.

Please call my office to discuss how you would like to proceed with resolving these outstanding issues. I will be leaving for vacation this afternoon, so if you cannot call prior to that, please speak with Bob Baker. He can be reached at (352) 343-6439 or (352) 308-9784. Thank you in advance for your assistance in resolving these outstanding items.
