**Re Request for Permit Modification
Permit No 40-069-114354-1
Hartwood Marsh Road – Phase I**

Dear Sirs

Please review this request for a permit modification of the referenced project permit. Attached are five copies each of the permit application, plan sheet change and calculations and excerpts from the permitted calculations verifying the adequacy of the design. Pond 2 has been modified in size and location due to the reduction of Basin 2 drainage area. The First Baptist Church property which was included in the permit withdraws its intent resulting to this modification. The modified Pond 2 remains a total retention design allowing no 100-year storm discharge with all the inflow pipe hydraulic parameters unchanged from the presently permitted plan.

Our check number 00485784 in the amount of \$1,000.00 for the application fee is also enclosed with this application. If you have any questions regarding this project, please feel free to contact me at 352-483-9053.

Sincerely,

Pat Magno, Jr., P.E.
Design Project Manager
