Thank you for taking the time to talk with me again this AM. I was able to find quite a bit of permit and related information on the website that is helping me piece this all together. I am impressed at the amount of documentation that has been scanned. I have tracked the progression of the area in question from when the storm lines were initially terminating in a temporary pond, with the exception of when the last 2 portions of that pond were eliminated, the lines were joined and extended to where they are today, and the club site drainage was added. Are you able to tell me the permit number for the clubhouse sitework? That is the one thing I could not seem to find on the website.

Thanks for all your help.

Cordially,
