MSSW/STORMWATER AS-BUILT CERTIFICATION BY A REGISTERED PROFESSIONAL

PERMIT NUMBER: 4-069-0326M-ERP

PROJECT NAME: Brighton @ Kings Ridge Phase III

I hereby certify that all components of this stormwater management system have been built substantially in accordance with the approved plans and specifications and is ready for inspection. Any substantial deviations (noted below) from the approved plans and specifications will not prevent the system from functioning in compliance with the requirements of chapter 40C-4, 40C-41 or 40C-42, F.A.C. (as applicable), when properly maintained and operated. These determinations have been based upon on-site observation of the system conducted by me or by my designee under my direct supervision and/or my review of as-built plans certified by a registered professional or Land Surveyor licensed in the State of Florida.

RE: KINGS RIDGE CONSTRUCTION ENTRANCE  
(FBA 941216.035)

Dear Jeanette:

Pursuant to our telephone conversation please find attached an 8 1/2 x 11 sketch of the existing construction entrance that is proposed to be paved from U.S. Highway 27 to Chapel Hill Boulevard. This letter is a request to pave 20-feet of the existing 30-foot limerock road, approximately 3,240 linear feet.

Please note that shown on the sketch is an 8-foot swale 1-foot deep to be constructed on the northside of the proposed paving to control erosion as well as provide stormwater treatment. Should you have any questions with regards to our request, please feel free to contact our office.

Sincerely,

FARNER, BARLEY & ASSOCIATES, INC.

Re: King Ridge PUD, Phase IV; Permit No. 4-095-0326M-ERP  
(Please reference the above numbers on any submittal)

Dear Mr. Ames:

The District issued your organization a permit for the above-referenced project on August 13, 1996. In order to avoid being subjected to civil penalties, **read carefully the conditions that are part of your permit**, and comply with the requirements of those conditions.

Also, we would like to offer our assistance in assuring that the project is constructed in accordance with the District's permit. We can offer our assistance by attending any pre-construction meetings that may be scheduled for the project. We ask that you notify us at least 10 days prior to the scheduled meeting. This will make it possible for us to obtain needed information concerning your permit. This pre-construction meeting can be one that you schedule with other individuals, or it can be a separate meeting with only District staff.

If your project involves the creation of a mitigation area, staff are willing to meet on-site during the construction of the mitigation area. Such a meeting for site specific condition evaluation may provide assistance that may ensure compliance upon completion of the mitigation construction.

Please call me at 407/897-4312, for notice of any pre-construction meetings, if you would like to arrange for a meeting with District staff, if you have not received a copy of your permit, or if you have questions concerning your permit. Thank you for your assistance.

Sincerely,

*Karen B. Davis*
