**MSSW/STORMWATER AS-BUILT CERTIFICATION BY A REGISTERED PROFESSIONAL\***

PERMIT NUMBER: 4-069-0326M2-ERP

PROJECT NAME: Wellington @ Kings Ridge

I hereby certify that all components of this stormwater management system have been built substantially in accordance with the approved plans and specifications and is ready for inspection. Any substantial deviations (noted below) from the approved plans and specifications will not prevent the system from functioning in compliance with the requirements of chapter 40C-4, 40C-41 or 40C-42, F.A.C. (as applicable), when properly maintained and operated. These determinations have been based upon on-site observation of the system conducted by me or by my designee under my direct supervision and/or my review of as-built plans certified by a registered professional or Land Surveyor licensed in the State of Florida.

Substantial deviations from the approved plans and specifications:

No Substantial deviations.

(Note: attach two copies of as-built plans when there are substantial deviations)

Within 30 days of completion of the system, submit two copies of this form to:  
Department of Permit Data Services  
St. Johns River Water Management District  
P.O. Box 1429  
Palatka, FL 32178-1429.

\*A registered professional is defined in subsection 40C-42.021(1) as "a professional registered in Florida with the necessary expertise in the fields of hydrology, drainage, flood control, erosion and sediment control, and stormwater pollution control to design and certify stormwater management systems. Examples of registered professionals may include professional engineers licensed under chapter 471, F.S., professional landscape architects licensed under chapter 481, F.S., and professional geologists licensed under chapter 492, F.S., who have the referenced skills.

Re: Wellington at Kings Ridge; Permit No. 4-069-0326M2-ERP  
(Please reference the above number on any submittal)

Dear Mr. Ames:

The District issued your organization a permit for the above-referenced project on August 12, 1997. In order to avoid being subjected to civil penalties, **read carefully the conditions that are part of your permit**, and comply with the requirements of those conditions.

Also, we would like to offer our assistance in assuring that the project is constructed in accordance with the District's permit. We can offer our assistance by attending any pre-construction meetings that may be scheduled for the project. We ask that you notify us at least 10 days prior to the scheduled meeting. This will make it possible for us to obtain needed information concerning your permit. This pre-construction meeting can be one that you schedule with other individuals, or it can be a separate meeting with only District staff.

If your project involves the creation of a mitigation area, staff are willing to meet on-site during the construction of the mitigation area. Such a meeting for site specific condition evaluation may provide assistance that may ensure compliance upon completion of the mitigation construction.

Please call me at 407/897-4312, for notice of any pre-construction meetings, if you would like to arrange for a meeting with District staff, if you have not received a copy of your permit, or if you have questions concerning your permit. Thank you for your assistance.

Sincerely,

*Karen B. Davis*  
Karen B. Davis, C.P.S., Executive Staff Assistant
