Choosing mediation will not adversely affect the rights to a hearing if mediation does not result in a settlement. The procedures for pursuing mediation are set forth in Sections 120.569 and 120.57, Florida Statutes, and Rules 28-106.111 and 28-106.401-.405, Florida Administrative Code. Staff Comments:

The proposed Legends project is located on the west side of U.S. Highway 27, approximately four miles southeast of Clermont, Lake County, Florida. The project is approximately 1500 feet north of Lake Louisa and is in the Ocklawaha River Basin. A previous permit, #40-069-0262-ERP, was issued on July 4, 1997, for the clearing and grading of 99.54 acres of the site's eastern portion; issued as Lake Louisa Club Mass Grading Phase I. This project is part of a DRI that includes Kings Ridge, Clermont, and

the Legends (Lake Louisa Club), but is a separate project. A Consumptive Use Permit, #20-069-0093AM was issued for golf course irrigation on June 15, 1998.

This application is for a 403-acre area of mass grading and construction of a master system which consists of 23 surface water ponds, associated storm sewer, and golf courses.

The existing condition of the proposed project site is sand ridge uplands. The natural topography consists of a high point in the east, three depressional areas in the south, and one depressional area in the west. The elevation of the high point is about 240 feet and the elevations at the bottom of the depressional areas range from 160 feet to 100 feet. The depressional areas are not wholly owned by the applicant. A geotechnical report shows that the depressional areas have no direct connection to the Floridan Aquifer. The project is bounded by US Highway 27 on the east and an existing Vista subdivision on the south. The general pre-development stormwater drainage direction is from the high point of the site to all directions off-site, except as bounded by US Highway 27 on the east and to the depressional areas on the west and south.

The proposed surface water management system will retain the total runoff from the 25-year/96-hour storm event. The project has a total of 23 drainage basins. Each post-development drainage basin will have a dry retention pond and the associated storm sewer. For all the dry retention ponds, the water quality treatment volume will recover within 72 hours and the total runoff volume will recover in 14 days.

There are two lined wet ponds in the system. Pond 2C is located at the entrance. The normal water elevation will be 163 feet. The total runoff volume of the 25-year/96-hour storm event will be retained above the normal water elevation and recover in 14 days. Pond 9 is a surface water/irrigation pond. Pond 9 is lined to elevation 238 feet with the pond bottom elevation at 228 feet. The normal water elevation in the pond will 236 feet. Water above elevation 236 feet will be used for irrigation. When the elevation drops below 236 feet, an on-site well or future reclaimed water from the City of Clermont shall augment Pond 9 up to elevation 236 feet. The use of groundwater is consistent with condition 25 of the consumptive use permit (permit #20-069-0093M, issued on June 15, 1998), which states "the lowest quality water source, such as reclaimed water or surface/storm water, must be used as irrigation water when deemed feasible pursuant to District rules and applicable state law." Although this pond could not recover the total volume from the first 25-year/96-hour storm event, it has additional volume to retain the total runoff of the second 25-year/96-hour storm event.

The applicant has submitted an Integrated Pest Management Plan (IPMP). Staff have reviewed and approved the IPMP.

The proposed project site consists of abandoned citrus grove, an abandoned farm house and associated structures with a long paved drive from U.S. Highway 27 to the structures, young planted pines and upland grassed areas. There are no wetlands and/or other

surface waters on site. The project will not cause unacceptable adverse secondary or cumulative impacts to upland habitats required by "listed" wetland-dependent species.

The proposed project meets all applicable conditions for permit issuance pursuant to sections 40C-4.301 and 40C-4.302, F.A.C.

Dear MR. BARNETT:

In compliance with your request for notice of applications received in Lake County, enclosed is a copy of Section C - Environmental Resource Permit Notice of Receipt of Application, Section A of the application, and a location map for each permit application applied for within the above referenced county.

Permit applications beginning with a "42" followed by an "I" (for example, 42-109-0001AI) or a "4" are Individual permit applications that require the District Governing Board to act on (approve or deny) the application. For these applications, you are advised to notify the District within 14 days of receipt of this letter of any questions, objections, comments or information regarding the proposed system. Those who file a written request for further information regarding the permit application will be furnished the information requested prior to the Governing Board meeting at which the application will be considered.

Permit applications beginning with "42" (without an "I" in the number) or "40" are General permit applications that are issued from the Service Centers. For these applications, any substantial objections to the permit application must be made in writing and filed with (received by) the District Clerk, located at P.O. Box 1429, Palatka, Florida, 32178-1429, on or before 14 days from date of posting of the notice of receipt of application. A substantial objection means a written statement directed to the District which identifies the objector, concerns hydrologic or environmental impacts of the proposed activity and relates to applicable rule criteria. If a substantial objection is received, the procedures applicable to an Individual permit application will be followed. The receipt of a substantial objection will entitle you to an individual notice prior to the Governing Board meeting at which the application will be considered.

Permit applications beginning with "400" are Noticed General Permit applications. For these applications, any objections as to whether the proposed activity qualifies for the requested noticed general permit must be made in writing and filed with (received by) the District Clerk, P.O. Box 1429, Palatka, Florida, 32178-1429, on or before 14 days from date of posting of the notice receipt of application. The posting date is shown

Lake County

Dear MR. WHITE:

In compliance with your request for notice of applications received in Lake County, enclosed is a copy of Section C - Environmental Resource Permit Notice of Receipt of Application, Section A of the application, and a location map for each permit application applied for within the above referenced county.

Permit applications beginning with a "42" followed by an "I" (for example, 42-109-0001AI) or a "4" are Individual permit applications that require the District Governing Board to act on (approve or deny) the application. For these applications, you are advised to notify the District within 14 days of receipt of this letter of any questions, objections, comments or information regarding the proposed system. Those who file a written request for further information regarding the permit application will be furnished the information requested prior to the Governing Board meeting at which the application will be considered.

Permit applications beginning with "42" (without an "I" in the number) or "40" are General permit applications that are issued from the Service Centers. For these applications, any substantial objections to the permit application must be made in writing and filed with (received by) the District Clerk, located at P.O. Box 1429, Palatka, Florida, 32178-1429, on or before 14 days from date of posting of the notice of receipt of application. The posting date is shown on the bottom of Section C in the shaded block designated as "For Agency Use Only", and adjacent to "Date to be posted". A substantial objection means a written statement directed to the District which identifies the objector, concerns hydrologic or environmental impacts of the proposed activity and relates to applicable rule criteria. If a substantial objection is received, the procedures applicable to an Individual permit application will be followed. The receipt of a substantial objection will entitle you to an individual notice prior to the Governing Board meeting at which the application will be considered.

Permit applications beginning with "400" are Noticed General Permit applications. For these applications, any objections as to whether the proposed activity qualifies for the requested noticed general permit must be made in writing and filed with (received by) the District Clerk, P.O. Box 1429, Palatka, Florida, 32178-1429, on or before 14 days from date of posting of the notice receipt of application. The posting date is shown

Dear MR. MCKAY:

In compliance with your request for notice of applications received in Lake County, enclosed is a copy of Section C - Environmental Resource Permit Notice of Receipt of Application, Section A of the application, and a location map for each permit application applied for within the above referenced county.

Permit applications beginning with a "42" followed by an "I" (for example, 42-109-0001AI) or a "4" are Individual permit applications that require the District Governing Board to act on (approve or deny) the application. For these applications, you are advised to notify the District within 14 days of receipt of this letter of any questions, objections, comments or information regarding the proposed system. Those who file a written request for further information regarding the permit application will be furnished the information requested prior to the Governing Board meeting at which the application will be considered.

Permit applications beginning with "42" (without an "I" in the number) or "40" are General permit applications that are issued from the Service Centers. For these applications, any substantial objections to the permit application must be made in writing and filed with (received by) the District Clerk, located at P.O. Box 1429, Palatka, Florida, 32178-1429, on or before 14 days from date of posting of the notice of receipt of application.
