*** IMPORTANT ***

FOR ALL SITE BUILT STRUCTURES, THE FINISHED FLOOR INCLUDING BASEMENT AND ALL MACHINERY / ELECTRICAL MUST BE 18 INCHES, OR GREATER, ABOVE THE B.F.E. ALL MOBILE AND MODULAR STRUCTURES, MUST BE ELEVATED SUCH THAT THE BOTTOM OF THE LOWEST STRUCTURAL MEMBER AND ALL MACHINERY / ELECTRICAL (TO INCLUDE DUCK WORK) IS 18 INCHES, OR GREATER, ABOVE THE B.F.E. (Ordinance No. 2012-71,7,11-20,12 /9.07.09).

No filling or dredging shall take place within the floodplain unless the owner receives prior written approval by the Lake County Public Works Department. (*Approved filling of Floodplain is for the elevation of structure only*). Lake County LDR, Sec. 14.20.01 "All proposed new development shall be reviewed to determine that: (E) Where buildable area exists out of the Flood-prone area, Development Shall take place in that area;". All applicable County, State and Federal permits shall be obtained before commencement of the permitted development.

The applicant hereby certifies that the above information is correct, and acknowledges that construction activity shall comply with Federal Emergency Management Agency (FEMA) and Lake County Land Development Regulations; whichever the most stringent restriction shall prevail.

I understand no construction can proceed beyond the footer/slab until the finished floor (including basement) Elevation Certificate is received and acknowledged by the Stormwater Section of the Public Works Department.

Floodplain Construction Permit No. 2018-050

SUBSTANTIAL IMPROVEMENT INFORMATION

Substantial Improvement (SI) means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure (or smaller percentage if established by the community) before the "start of construction" of the improvement. This term includes structures that have incurred "substantial damage," regardless of the actual repair work performed.

Substantial Damage (SD) means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before-damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred. Work on structures that are determined to be substantially damaged is considered to be substantial improvement, regardless of the actual repair work performed.

The applicant may be issued a building permit for new construction or substantial improvement provided it is in accordance with all applicable zoning, building and floodplain regulations.

ELEVATION CERTIFICATES REQUIREMENTS

All Elevation Certificates submitted in the State of Florida are required to have a raised or electronic seal (no inked seals). Lake County requires two (2) colored photos for each Elevation Certificate submitted. Certificates shall be in 1988 NAVD Datum. Lake County offers a free review of all Elevation Certificates prior to submittal; email: flood@lakecountyfl.gov or fax: 352-253-6016

Are Elevation Certificates Required: [X] YES

Non-living Structure vented: [] YES [X] NO

To: Lake County Public Works, 323 N. Sinclair Ave., [] NO

Tavares, FL 32778 or P O Box 7800, Tavares

Vented non-living structures may still require Elevation Certificates. Venting is required to meet FEMA, State and County LDR regulations.

FEMA's N/A Lake County

* Note: if a map revision has resulted in a higher BFE, a post-FIRM building must comply based on the new BFE.

F.S.E. Building Under Construction Elevation Certificate N/A ft. Received N/A Staff Initials:

The first Elevation Certificate is also known as Finish Slab Elevation (FSE). For Structures built slab on grade construction the Elevation Certificate is required when the form boards are up. Your surveyor will shoot the top of the boards. If your construction is stem wall construction the Elevation Certificate is required when the top of the stem wall is finished. Your surveyor will shoot the top of the stem wall.

F.F.E. Finished Construction Elevation Certificate ft. Received Staff Initials:

The second Elevation Certificate is also known Finished Construction or Finished Floor Elevation (FFE). The Finished Construction Elevation Certificate is required when the construction is finished (including elevations of the lowest elevation of all machinery/ equipment servicing the structure, lowest adjacent grades and so on as required by FEMA. Only Finished Floor Elevations Certificates are required for Mobile Homes modular (or any non-site built structures), and vented non-living structures.
