Please see string below, just want to make sure we are all on the same page. It appears that Middlesex would not have an issue with coming back and paving the north portion of Hancock.

They are paving Northbound on Saturday from the South end of the job and currently plan on stopping at the point the county identified just North of Fosgate Road. Melody also doesn't have any concern with having to finish the section separately if an agreement is not made. Also note- The Melanie that Lori mentions at the bottom of the email is not our TMC Paving Melody. Apparently it is someone else at the county. Melody has not indicated to the county that we would be working out a contract.

Based on Jeff's initial plan and the plan that the county provided this would work out ok. Jeff is reviewing this with his design team today.

Saturday, TMC is paving the North Bound outside lane from the South end of the project (South of old SR 50) to the line that Joe with Lake County painted at the North end of the project just North of Fosgate. We are NOT going all the way to the current North limits in the Pospiech project plans. So if TMC construction does not work out a deal with Lake County to include this in their contract we can just finish that pull before we complete our paving for Pospiech. Not an issue.

I'm tied up all day at D7 with Gateway Express. I am calling into our weekly owner meeting with FTE to discuss.

Who's telling you Middlesex is paving that area on Saturday?

I spoke with Melanie this morning and she doesn't see a problem with doing an agreement with Middlesex for the FC and striping. We'll need a scope of work and their cost to accompany the agreement. Barnett is also on board with it.

So.... Please get with Middlesex to see if they are interested and at a cost we find reasonable. Let me know if I need to start drafting that agreement.

Thanks,
Lori
