

EXHIBIT A – SCOPE OF WORK

FULLY AUTOMATED BEAR RESISTANT TRASH CANS

Lake County to purchase commercially manufactured, 95-gallon capacity, bear-resistant trash cans to reduce bear access to garbage such as human-provided foods, reduce human to bear conflicts, and increase public safety. There is no guarantee or minimum to the number of cans purchased.

1. TRASH CAN CHARACTERISTICS

- 1.1. Compatible with fully automated waste collection systems (i.e., a person does not have to unlatch the can for it to be serviced by a waste collection vehicle equipped with a side-loading mechanical arm).
- 1.2. Gravity-based functionality (i.e., opens automatically when waste collection vehicle tips trash can to empty it).
- 1.3. The lid automatically latches when the trash can is set down by the mechanical arm of the waste collection vehicle.
- 1.4. Contents are protected from rain and moisture.
- 1.5. Has two (2) wheels for residents to be able to easily tip the trash can to roll it.
- 1.6. User-friendly and can be opened and closed easily, does not become unbalanced or tip over when the lid is open, and is not prohibitively heavy when empty.
- 1.7. Has been certified as bear-resistant by the interagency Grizzly Bear Committee or a Black Bear Testing Certification from the Wildlife Management Institute.

2. PRICING

- 2.1. The cost of shipping should be separate from the cost of the bear-resistant trash cans.

3. DELIVERY REQUIREMENTS AND ACCEPTANCE

- 3.1. All items will be delivered to: Lake County Solid Waste, 13130 County Landfill Road, Tavares, FL 32778
