LIMITED COMPETITION & SOLE SOURCE JUSTIFICATION

This form is required justification for purchases over \$1,000.00 from limited competition or sole source when it has been determined in the best interest of the County to utilize other than full and open competition. Limited competition and sole source procurement are to be used only as an exception when all attempts to pursue competitive purchasing have failed. Additionally, when the County requires an existing contractor to make a change to its contract that is beyond the scope of that contract, the County has made a sole source award that requires written justification via this form. Acceptance of limited competition and sole source procurement will be at the discretion of the Director of the Office of Procurement Services.

Limited Competition – available from multiple sources with only one feasible source for a specific reason

Sole Source – available from only one source, an equal product or service not available from any other source.

Standardization – It is in the best interest of the County to utilize one brand; falls under "limited competition" procurement.

1. VENDOR NAME AND PRODUCT OR SERVICE DESCRIPTION

- A. Vendor Name (and dba): Seon System Sales Inc. dba Safe Fleet
- B. Describe the product/service and its function:
 On-board video surveillance equipment for transit and paratransit buses.
- C. Describe the anticipated (FY or one-time) costs including future obligations (attach quote): \$23,480.00
- D. Why is it in the County's best interest to waive the normal competitive process in this case?
- E. How can we promote full and open competition in the future similar purchases?
- **F.** Indicate funding source. If grant-funded, provide documentation that limited or sole source procurement will not violate the terms of the grant.

FTA Grant FL-90-X817 Project #20504

4.5 Sole Source Proposale Evaluation Process REQUIREMENT All procurement transactions must be conducted in a manner providing full and open competition. Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source and may be used only when one or more of the following circumstances apply: (1) the Item is available only from a single source; (2) the public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation; (3) FTA or the pase-through entity expressly authorizes noncompetitive proposals in response to a written request from the recipient; or (4) after solicitation of a number of sources, competition is determined inadequate. See 2 C.F.R § 200.320, Methods of procurement to be followed, and FTA Circular 4220.1F, Chapter VI, paragraph 3.1. Other Than Full and Open Competition.

LIMITED COMPETITION & SOLE SOURCE JUSTIFICATION

2. ANSWER APPLICABLE QUESTIONS

A. Compatibility to existing equipment, methodology, or training:

- 1. With what other material must this requirement be compatible? Existing Seon video surveillance systems in the transit feet require Seon Software, hard drives and parts. Existing hard drive viewers will only work with Seon hard drives.
- 2. What is the approximate dollar value of the existing material? \$404,720.00
- 3. List the unique properties making this the only product compatible with existing material.
- 4. Provide (attach) all supporting information.

B. Only known manufacturer or provider of this product:

- 1. List sources of all research conducted to support this claim (i.e., trade shows, Internet searches, professional journals, colleagues, etc.).
- 2. List names and findings of other manufacturers solicited information from.

Apollo Video Technology. 10,710.13 JTA State Contract P-18-005 and FDOT contract #TRIPS-17-CA-ABG

C. Only product that will meet the requirements of the intended use although other like items exist:

1. Identify manufacturers and the product deficiencies that led to disqualification.

Apollo Video Technology can not use Seon Hard Drives and software for media viewing, storage.

2. State the reason(s) why this product is superior to all others (Be very specific).

Estimated Cost to switch to Apollo Video Technology from Seon System Sales for Fixed Route bus \$10,710.13 x18 = \$192,782.34 Cost per Para-transit bus \$7,518.86 X 45 = \$338,330.25. Avg Installation cost per vehicle \$5000.00 x 63 = \$315,000.00 Avg cost of hard drive at \$550.00 each x 75 = \$41,250.00, Docking Stations \$215.00 x 8= \$1720.00 Total Cost \$889,084.59

3. Provide (attach) other supporting research to document the need for this specific product.

LIMITED COMPETITION & SOLE SOURCE JUSTIFICATION

D. Regional Sales/Support/Service: Provide (attach) proof this is the only vendor authorized to sell, support, or service for this region.
E. What are the consequences of not securing this specific item?
F. Provide additional information not furnished above that supports specific requirements necessitating limited competition / sole source purchase.

April 20, 2022

Lake County Board of Commissioners Jill Brown Director Fruitland Park, Florida 34731

RE: Sole Source Manufacturing

Dear Ms. Brown,

This letter is to confirm that Seon Design Inc. is the sole owner of the design of the transit bus on-board video surveillance equipment that you are currently using at your facility. Seon engineers design all our systems for public transit bus applications. All components are made to Seon specifications and finished transit bus product is solely under the name Seon System Sales, Inc. and can meet Buy America requirements. Seon's DVR's and parts (hard drives etc.) are configured to only work with Seon DVR's.

All prices quoted to Lake County Board of Commissioners are equal to or less than the prices charged to other customer for similar products, components, and quantities.

I trust you will find this information satisfactory.

John D. Meyer.

Thank you for your consideration!

Sincerely,

John Meyer

Director of Sales - Transit Bus and Rail

Safe Fleet - SEON Design, Inc.

1-406-273-8139 | <u>imeyer@safefleet.net</u>

Safe Fleet Bus & Rail is a division of Safe Fleet, the leading global provider of safety solutions for fleet vehicles and the #1 provider of mobile video surveillance solutions, as reported in IHS Group's 2018 biennial report on mobile surveillance.

Safe Fleet Preventative Maintenance Program

Ensure your fleet safety systems are running optimally, increasing system and safety performance and reducing operational cost.

ASK US HOW IT WORKS

All purchases must be confirmed with an authorized signature from the purchaser; company issued purchase orders should be provided for all purchases exceeding \$10,000.00 (in addition to authorized proposal). Any purchases that are exempt from sales taxes must be accompanied by a tax exemption and/or resellers certificate.

By signing this proposal (the "Proposal") (or, if this Proposal is attached to, referenced in, or otherwise accompanies any other agreement, statement of work, purchase order, or other similar document, by or between the parties and/or their applicable affiliates (any of the foregoing, collectively, the "Accompanying Agreement"), then by signing such Accompanying Agreement), the Customer agrees to all terms and conditions set forth herein, including without limitation those set out in this Comments and Terms section, and to the Safe Fleet Video & Telematics Products and Services Standard Customer Terms & Conditions, currently available at safefleet.net/v-and-t-general-terms (as may be updated or amended by Safe Fleet from time to time in its discretion, the "Ts&Cs"), which are incorporated herein and will govern all products, services, and other matters set forth herein. Capitalized terms used but not defined herein shall have the meaning ascribed to them in the Ts&Cs.

Customer and Safe Fleet expressly agree that, notwithstanding anything to the contrary in the Accompanying Agreement, including any provision thereof relating to order of precedence, conflicts, or "battle of the forms," in the event of any conflict, ambiguity, or inconsistency (any of the foregoing, a "Conflict") between any term, provision, requirement, request, specification, or other provision (any of the foregoing, a "Provision") of the Accompanying Agreement and any Provision of this Proposal (including, for clarity, the Ts&Cs), this Proposal shall prevail and control; Customer and Safe Fleet intend this Proposal to be, and this Proposal shall be deemed to be, an amendment to any Conflicting Provision of the Accompanying Agreement.

The warranties applicable to the products, services, and other matters set forth herein are available at https:// www.safefleet.net/product-and-service-warranties (the "Warranty Documentation"). Notwithstanding any other provision in this Agreement, the Warranty Documentation sets forth the sole warranties with respect to the products, services, and other matters set forth herein, and Safe Fleet hereby expressly disclaims all other representations and warranties, express or implied.

Seon Additional Comments & Terms:

Proposed installation prices are based on all vehicles being present and available, in a single location, at the time of scheduled installation. Any offsite installation work or the requirement to return to the site at a later date are subject to additional fees including labor and associated travel costs.

This quote is valid for up to 60 days. All sales are final. A restocking fee of 20% will apply for any product returns and/ or exchanges requested after initial shipment of the product. Note that product returns and/or exchanges will only be accepted for new, unused product that is within the original, unopened packaging.

The following additional terms and conditions apply to Customer's use of the Smart Reach Cellular Router All-in-One (SRC-ROUTER-S-1), and/or Safe Fleet Stream Cellular DATA PLAN, but, in each case solely during the period (if any) for which Customer has purchased a Smart Reach Hotspot plan:

- (1) All pricing for Hotspot Cellular Products assumes a three-year commitment by Customer. Typically, Safe Fleet requires payment in full for all hardware in advance. When Customer purchases a Smart Reach Hotspot plan, however, as an added benefit to Customer, Safe Fleet amortizes the cost of hardware over the three-year subscription period. Therefore, in consideration of the foregoing, Customer acknowledges and agrees that, if Customer terminates its wireless subscription prior to the third anniversary thereof for any reason, Customer will, within 30 days of notice of termination, pay an early termination fee equal to the full cost of all hardware purchased by customer, less only the amortized portion thereof for which Safe Fleet has actually received payment as of the effective date of such termination (which amount Safe Fleet will communicate to Customer upon Customer's request). Notwithstanding the foregoing, Customer may pay the full cost of the hardware in full in advance, in which case the three-year commitment and early termination fee will not apply.
- (2) Unless otherwise provided in this Proposal, the Smart Reach Hotspot plan permits 60GB of data usage per year. Customer may track data consumption using Safe Fleet data reports, and may purchase additional data if mutually agreed by the Parties in writing. Customer may contact Safe Fleet for current rates. If Customer uses 60 GB of data in a subscription year and has not purchased additional data, Customer may no longer use, and Safe Fleet may terminate, Customer's connection. Annual data not used in the applicable year will be forfeited and will not be credited or rolled over to subsequent years.

The following additional terms and conditions apply to Customer's use of the Smart Reach Cellular Modem (SRC-MODEM-S-1), Smart Reach Cellular Router All-in-One (SRC-ROUTER-S-1), and/or Safe Fleet Stream Cellular DATA PLAN, in each case except during such period (if any) that Customer has purchased, and is current on payment for, a Smart Reach Hotspot plan:

- (1) Customer agrees that it will not (a) enable any WIFI hotspot that makes use of any Safe Fleet stream Cellular Data Plan, (b) allow passengers or any other third parties to use any Safe Fleet Stream Cellular Data Plan, or (c) use any Safe Fleet Stream Cellular Data Plan for any purpose other than to use the applicable Seon products (e.g., RV50-X and/or MP70 products, as applicable) for their intended purposes, as set forth in applicable Seon documentation.
- (2) Without limiting the foregoing, Customer further acknowledges and agrees that Safe Fleet will have no obligation to provide support of any kind to enable, or otherwise relating in any way, to any wifi hotspot that makes use of any of the foregoing Cellular products and/or services.
- (3) The Safe Fleet Stream Cellular DATA PLAN offers limited data per month and is intended for use solely for Live Stream video. Customer's data limit is set forth above in this document. Data may be shared among vehicles in

Customer's fleet. Monthly data not used in the applicable month will be forfeited and will not be credited or roll over to subsequent months. Customer will pay an overage fee per gigabyte of data (prorated for any portion of a gigabyte) used in excess of the monthly limit, at Seon's then-current, applicable pricing. Customer may request the latest overage fee price from Customer's sales representative, by referencing Part Number: DATA-OVERAGE-1G-S.

Thank you for the opportunity to provide a Proposal for your mobile surveillance and fleet management needs. We trust this customized solution will help you meet your goals for passenger and driver safety and security.

Please feel free to contact me directly at 1.877.630.7366 if you have any questions or concerns. We look forward to partnering with you.
